

Employee Reliability Inventory Screening System

ERI® UPDATE: CLIENT SURVEY

In an effort to get feedback from our clients who are using the Employee Reliability Inventory Screening System (ERI®), we recently conducted a survey of ERI® users. We are looking forward to using this information to assist us in our efforts to continually update and improve the ERI® and our services. Here is some of what our clients told us:

- The ERI® system is being used by a wide range of industries, including Service, Manufacturing, Health Care, Retail and Security.
- Well over half reported that they have documented significant cost savings as a result of adding the ERI® system to their hiring process.

We also learned the following:

- **Start Up Implementation of the ERI® system** - 90% reported that start up implementation of the ERI® was “very easy.”
- **Ease of Administration** - 89% said that administration of the ERI® system was “very easy.”
- **Degree of Acceptance By Job Applicants** - 89% indicated that job applicants’ acceptance of the ERI® system was “very high.” No client reported any difficulties with job applicant acceptance.

- **Service & Technical Support** - 89% rated our client services and technical support as “very good” or “excellent.”

Some of our clients’ specific comments. . .

“The ERI® keeps potential problem employees from ever getting hired.”

“It provides a good graphic profile — readily identifies potential problem areas.”

“The ERI® is very accurate on targeting potential problem people.”

“It is great.”
